Hiring Manager

Loblaws
40 Hanna Avenue
Toronto, ON, M6K 0C3

RE: Software Developer, Co-Op

Dear Hiring Manager,

As an aspiring software programmer with excellent programming and analytical skills, I am writing to apply for the position of Software Developer, Co-Op. I came to know about this position from one of the advertisements posted on the website. I am confident that my exceptional programming skills, project-based experience, and qualifications are what make me suitable for the position.

Currently, I am in my third year of Advanced Diploma in Software Engineering and Technology at Centennial College. I believe with skills I gained in Java, and Java2EE software development and server-side script ASP.NET, JavaScript with CSS and HTML5 will make me an excellent fit for this position. I have already accomplished an online Grocery shopping website where I used Asp.Net with C# as backend and HTML5, CSS, JavaScript for frontends. The second component of the grocery website was a mobile app, developed in Hybrid Java and deployed to amazon web services. Besides programming and design skills, I also possess exceptional skills in MySQL, Oracle 12c, Node.js, express Node, and Unix / Linux.

Beside exceptional customer's services of Loblaws, in 2018, Loblaws was selected as one of the best Canada's diversity employers. I would love to work in such diverse environments, and I believe I have the potential to offer my best service via my software developments skills and knowledge. I am confident that, once you review my qualifications, you will find they are matching your requirements for this job posting.

I would appreciate an opportunity to talk about my skills in person with you. I can be reached anytime via my cell phone, (416) 830-0378 or via email at syednacer@gmail.com.

Sincerely,

Syed Nasir
